PRODUCT DESCRIPTION

A soundbar that brings Bang & Olufsen sound to your TV.

A soundbar bringing Bang & Olufsen sound to your TV and designed as an interior piece. Beautifully crafted, Beosound Stage is powerful enough to avoid the need for a separate subwoofer and offers an extraordinarily high-performing all-in-one solution that stands out for its sound performance and minimalist design. By offering a 3 channel sound system with superior centre channel and left/right stereo, spiced with Dolby Atmos you achieve exceptional performance flexibility, filling the room with sound. The integrated audio streaming technologies Google Cast, Apple AirPlay and Bluetooth make for an amazing multiroom enabled music system in its own right.

KEY SELLING POINTS

Soundbar as an interior piece

Beosound Stage is designed as in interior piece rather than a technology product, where exclusive and functional materials combine Scandinavian simplicity with state-of-art audio technology. The soundbar becomes part of your décor, blending in while standing out.

Powerful room filling sound

By offering a 3 channel sound system with superior centre channel and left/right stereo spiced with Dolby Atmos, you achieve exceptional performance flexibility, which brings the TV viewing experience to a new and exciting level - without the need for a subwoofer.

Integrated music and multiroom capabilities

Besides being a thrilling TV sound companion, Beosound Stage can also work as your music system. The integrated audio streaming technologies Google Cast and Apple AirPlay make for an amazing multiroom enabled music system in its own right.

Floor Stand

Unique and minimalistic floor placement of TV that lifts the Beosound Stage soundbar and the TV into a complete TV solution.
