

Beauty from every angle

A minimalist speaker that maximises your music experience: Beosound Balance is an award-winner for a reason. The simplicity of its design, rooted in Scandinavian minimalism, contrasts strongly with its raw, high-performing sound. It plays out your favourite music in every direction, in any room.

Built-in proximity sensors welcome you by lighting up the controls when you're close by, otherwise leaving only the sleek aluminium surface visible.

Why you'll love it

-  Minimal design
-  Adaptive sound
-  Natural materials
-  Part of Connected Speakers

Basic

PRODUCT DIMENSIONS

5 WORDS:
A minimalist speaker that maximises your music.

10 WORDS:
A minimalist speaker that maximises your music experience in any room.

25 WORDS:
A minimalist speaker that maximises your music experience.
Beosound Balance is perfect for placing against a wall, on a shelf or on a side table.

50 WORDS:
A minimalist speaker that maximises your music experience. Beosound Balance is perfect for placing up against a wall, on a shelf or on a side table. With Active Room Compensation and a 360-degree design, it delivers full-bodied sound that automatically adapts to the room for flawless playback, always.

100 WORDS:
A minimalist speaker that maximises your music. Beosound Balance is perfect for placing against a wall, on a shelf or on a side table. With Active Room Compensation and a 360-degree design, it delivers full-bodied sound that automatically adapts to the room for flawless playback, always. Built-in proximity sensors welcome you when you approach – controls appear when needed and then dim to leave only the sleek aluminium surface visible. With carefully curated materials, colours and finishes – like solid oak and marble, knitted textiles and crafted aluminium – it’s the perfect balance between elegant and approachable beauty.

Key Selling Points

**EXTERIOR ELEGANCE.
INTERIOR INTELLIGENCE.**
Beosound Balance is designed to be placed against a wall, on a shelf or on a side table. Regardless of its position, with Active Room Compensation it will always deliver a flawless, full-bodied sound experience – one that’s impressively powerful compared to its size.

STUNNING SOUND, THE WAY YOU WANT IT.
The choice is yours when it comes to how you want to listen. With Adaptive Bass Linearisation, Balance delivers strong bass performance and a broad sound image for truly room-filling music – and features Sound Directivity for focused listening from all positions. You get it all in one elegant package.

HONEST NATURAL MATERIALS.
Less like a speaker and more like a sculpture, Beosound Balance packages the latest audio technology in beautiful interior object form. The simplicity of this design – a precision-crafted aluminium grill paired with a solid marble or oak wood base – is rooted in Scandinavian minimalism and contrasts strongly with the speaker’s raw performance.

PART OF CONNECTED SPEAKERS
Add Balance to any connected speaker set up and experience immersive music throughout your home. Play the same song everywhere or different songs in different rooms – you are in control.
